

Smith & Wesson

Handguns

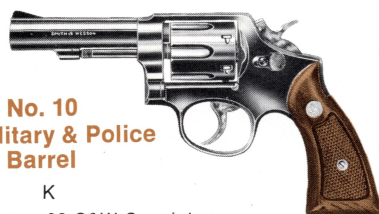

Handguns

Smith & Wesson handguns have been the choice of discriminating shooters since 1852. The reason is quality. Quality built into each gun from inspection of raw material through each step of manufacture to test firing. Barrels are microhoned and mirror finished for outstanding bullet performance and accuracy. And, of course, you can rely on that smooth S&W double action shot after shot, as well as the crisp single action demanded for long range accuracy.

Model No. 10
.38 Military & Police

Frame: K
Caliber: .38 S&W Special.
Rounds: 6 shot cylinder capacity.

Engraving

Smith & Wesson engraving is available on any model handgun. Each engraving is a unique, original work of art, created and executed by skilled artisans.

The photograph illustrates examples of the three basic classes of engravings which are available. Class A engraving provides full coverage over the whole gun. Class B provides ⅔ coverage and Class C ⅓ coverage.

The Texas Ranger Commemorative illustrated is an example of custom engraving that goes beyond Class A coverage. Virtually any type of custom design, from two or three initials, to duplicates of seals or emblems to profuse inlaying with platinum and gold, is also available.

Accessories

Target Stocks. S&W target stocks are longer, thicker and more hand filling. They position the hand lower on the gun to provide a more precise alignment of trigger finger to the trigger to allow a straight back and down pull on the hammer in single action fire. The large area of contact with the hand minimizes recoil. Available in walnut with checkering or in colorfully grained Rosewood and Goncalo Alves, either plain or checked.

Target Hammers. Available for both large (N) and medium (K) frame revolvers, S&W target hammers have low, full 1/2-inch wide, deeply checked spurs to provide maximum nonslip thumb control for single action timed and rapid fire.

Target Triggers. S&W target triggers feature a finger place that is swaged to the maximum possible width. (A full 1/2-inch on large (N) and medium (K) frame models and .400 inch on small (J) frame models). The large area of contact with the trigger finger minimizes trigger pull. Smooth combat triggers are available for (K) and (N) frame revolvers.

Target Sights. The following sights are available for large (N) and medium (K) frame models with full length barrel rib.

- A. 1/8" **Patridge**
on ramp base or blade only.
- B. 1/8" **Baughman Quick Draw**
on ramp base.
- C. 1/8" **Call Gold Bead**
on ramp base or blade only.
- D. 1/8" **McGivern Gold Bead**
on ramp base or blade only.
- E. 1/8" **S&W Red Ramp**
on ramp base.
- F. 1/8" **S&W Red Post**
on ramp base.
- G. **S&W Micrometer Click Rear Sight**
with 1/8" rear sight slide.
- H. **S&W Micrometer Click Rear Sight**
with 1/8" white outline rear sight slide.
- I. 1/8" **White Outline Rear Sight Slide**
